5 Cost

Starting at \$600 per program

Final price depends on program length, group size, and travel distance within LA County. You'll receive a specific, itemized quote after sharing your school's details.

6 How Schools Pay for It

- PTA / PTO funds
- Title I enrichment budgets
- Arts-integration grants
- General assembly / enrichment budget lines

Most LA County schools already have this covered: California's **Prop 28** sends every public school dedicated arts-education funding automatically each year — no grant application needed — and it can be used for outside programs like this one.
